TRANSCRIPT OF RECORDS

1. Adaptive hypermedia systems	70	excellent
2. Geometry and groups	60	pass
3. Supplementary chapters of general topology	300	excellent
4. Foreign language	113	excellent
5. History of mathematics	104	excellent
6. Linear algebra and normed spaces	180	excellent
7. Logic and discrete methods	60	excellent
8. Functional analysis methods in the theory of probability	70	pass
9. Modeling	200	pass
10. Academic seminar for international programs	156	excellent
11. Fuzzy sets and fuzzy logic	150	excellent
12. Pattern recognition	200	excellent
13. Modern geometry problems	150	pass
14. Special seminar	150	pass
15. Statistics	200	excellent
16. Statistic analysis in modeling	70	pass
17. Dimension theory	150	good
....		
Total	4427	
Including lectures	2108
